

Production Modeling India Pvt. Ltd. | Issue No. 1 • Quarter: April – June 2026

PMI Quarterly Bulletin

A note to our well wishers

We are delighted to launch the first issue of the PMI Quarterly Bulletin — a new way for us to keep our well-wishers, supporters, and customers connected with the work happening across Production Modeling India Pvt. Ltd. Each quarter, we will share highlights from our engagements across Industrial Engineering, Discrete Event Simulation, 3D Laser Scanning, Steel Detailing, HR Consulting, and Training.

April–June 2026 was, as expected, a very busy quarter for PMI across all business verticals. Here is a look back at what we achieved together.

Highlights of the Quarter

Industrial Engineering & CAD Deployment:

PMI began deploying manpower at a major automobile giant for industrial engineering as well as CAD support — marking a significant new engagement in the automotive sector

Discrete Event Simulation (DES)

Our support to multinational clients for DES work continued through the quarter, reinforcing PMI's position as a trusted simulation partner for global manufacturers.

Aerospace Industry Study

PMI successfully completed an Industrial Engineering project for one of India's growing aerospace companies, delivering work standards, layout optimization, manpower planning, and operational improvement solutions.

HR Consulting

PMI has successfully completed HR and Talent Consulting projects for five renowned organizations across different industries in India.

Quarter in Numbers

10 Total projects completed

3 New client engagements

4 Current ongoing projects

PMI is Looking Forward to...

1. Delivering Work Standard Implementation and Productivity Improvement projects for manufacturing industries.
2. Providing end-to-end Plant Layout Design and 2D to 3D Layout Conversion services.
3. Supporting process industries with Laser Scanning and 3D Plant Layout Generation solutions.
4. Partnering with one of India's leading telecommunications companies to deliver HR Tech and Digital Transformation solutions.
